

Business insurance at a glance

What is business insurance?

A business takes years to build – but an accident or disaster could destroy it all in minutes. That's why businesses should help protect themselves with a quality business insurance pack.

With the right cover in place, owners can run their business with confidence, knowing that their premises, stock, equipment and reputation are protected by insurance.

Who should consider it?

Business owners can benefit from taking out an affordable and comprehensive business insurance pack to help protect them against the main risks involved in running a business.

"Having the right insurance will help protect your business and minimise its exposure to risk. This may include insuring your business, your income and your commercial risk."

Department of Innovation, industry and science, 2018

CASE STUDY

Rohan owns a shop in the city. One night a water pipe bursts, flooding the building and damaging his stock. Even worse, the building must be evacuated and renovated to repair all the water damage. This means that Rohan is unable to trade for six weeks. Rohan's business insurance covers the cost of the renovations. And, because he has business interruption insurance, he receives a payout to cover the income lost while he's unable to trade.
